## Extended Minimalist Index Validation - 12.05.25

#### **UMANA**

Footwear Analysis Biomechanical Center

### REPORTS

that the FNNTWFAR

# VICTORIA - TRIBU (PISO 1355)

has an extended minimalist index of

83,3%

and obtains a cataloging of

#### MINIMALIST FOOTWEAR

taking into account all the parameters involved (specified in the technical annex).

UMANA guarantees the accuracy and objectivity of the tests in the laboratory, which have been carried out under strict study protocols and which allow obtaining values for the analytical parameters in a direct instrumental manner.
